

True Calibration Services

(A Unit of CliniApps Pvt. Ltd.)

India's Most Trusted Calibration Laboratory

About Us

True Calibration Services (A Unit of CliniApps Pvt. Ltd.) was established in 2013 and is engaged laboratory instruments, Instrument Calibration, Instrument Validation, Training and Consultancy Services. True Calibration Services is a leading independent facility provides quality calibration services for testing and measuring instruments.

It was established in time when only government laboratories extended such services with laxity and high cost In short span of time we have built strong business relationships and a wealth of engineering experience, creating a sustainable value for companies relying on test, measurement and control instrumentation, through an extensive network of measurement team represented by strong technical work staffs and highly skilled engineers, facilities and resources.

Our Mission

“One stop shopping” – This is what our customer’s want, what they need, and it is what we provide. We listen to you and make every effort to provide the services that you need to satisfy your business requirements. This is what has made True Calibration Services the foremost laboratory in India.

Truecal Undertaking

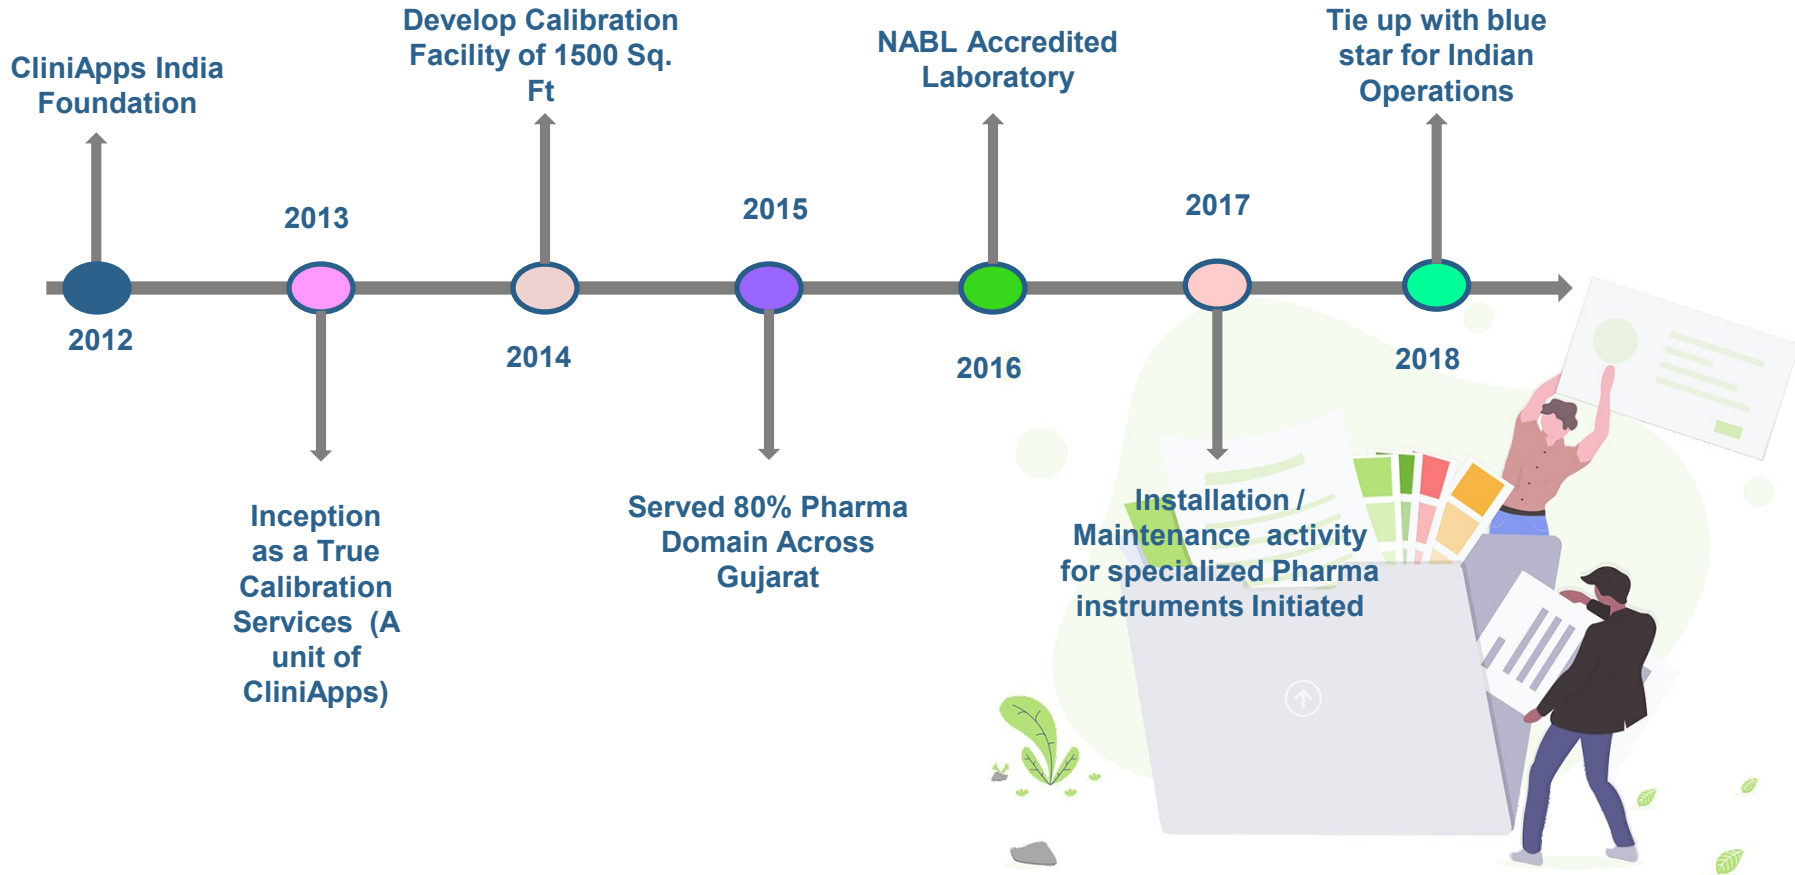

To continually improve the quality of calibration services to our valuable customers

To ensure implementation of the requirements of ISO/IEC: 17025.

To ensure timely delivery of service without affecting quality of calibration.

Our Journey

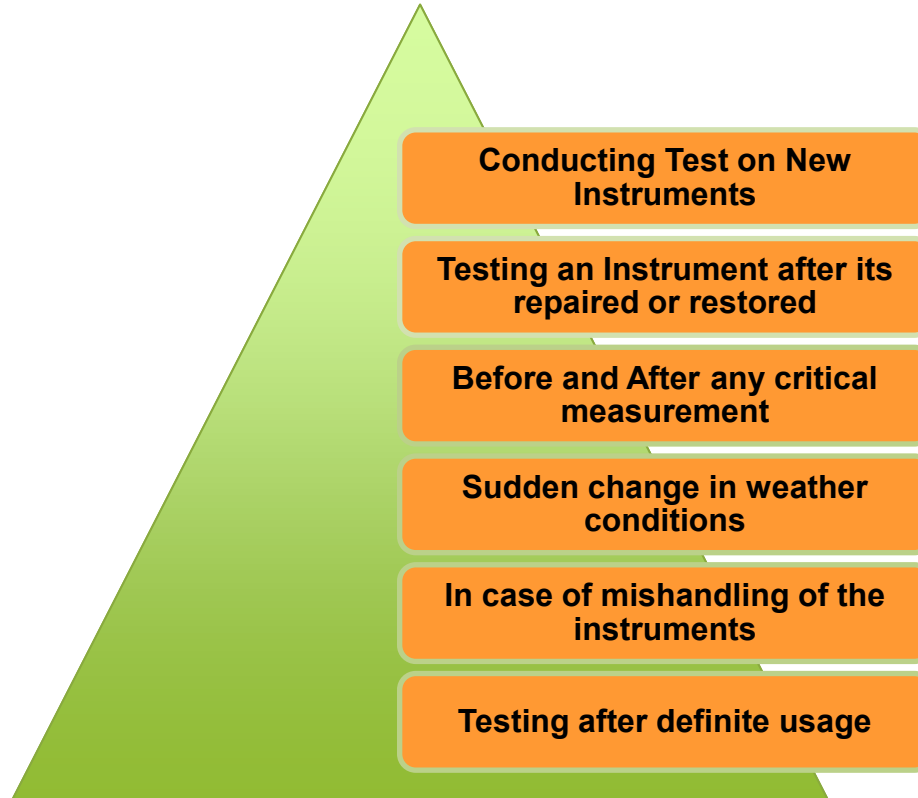

Calibration Stands For

Calibration is the process in which an instrument is adjusted to the required accuracy and precision in order to minimize the errors in the reading of Instrument. Any Instrumentation design demands elimination of the elements that creates inaccuracy in the measurements despite of different testing schemes for every product.

After calibration, instrument shows accurate values of the sample being tested, which in turned provides a safe working environments and produces logical and authentic data for future references.

Instrument Calibration Is Highly Recommended When

Industries in which we are working for

Our process is easy
